# Traffic Safety Trimline Channelizer **THE DIVERTOR™**

The Divertor™ is a highly visible 42" Trimline Channelizer designed for service in a wide variety of applications. Ideal for controlling traffic in areas of limited space and can be fitted with lights and other accessories.

The Divertor™ features an easy-grip handle, allowing for easy carrying and quick positioning. The unique design allows convenient stacking with or without the base. The Divertor™ is made of quality linear low-density polyethylene and can be ordered with or without 3M™ reflective sheeting and a variety of recycled rubber base weights for support.
